track or a university (level VII) degree

Vsebina:

- Študenti prvega letnika, katerim je predmet namenjen, se seznanijo s temeljno metodološko literaturo znanstvenega raziskovanja
- Študenti prvega letnika prisostvujejo predstavitevam doktorskih tez študentov drugega letnika
- razprava, vodena s strani mentorjev doktorskih študentov in študentov drugega letnika, ki predstavljajo svoje doktorske teze

Content (Syllabus outline):

- First-year students for whom the course is intended are acquainted with the basic methodological literature of scientific research
- First-year students attend presentations of doctoral theses of second-year students
- Discussion led by mentors of doctoral students and second-year students presenting their doctoral theses

Cilji in kompetence:

Slušatelji, študentje prvega letnika, se bodo seznanili s praktičnimi primeri znanstvenega raziskovanja in uporabo raznovrstnih znanstvenih metod ter nasveti za učinkovito pripravo svojih doktorskih disertacij, kar bo uporabno tudi širše: za pripravo predlogov projektov ter pisanje znanstvenih člankov. Ob tem se bodo seznanili s temeljno metodološko literaturo znanstvenega raziskovanja in prisostvovali predstavitvam doktorskih tez študentov drugega letnika, ki bodo predstavili osnovna izhodišča svojih raziskovalnih vprašanj, oblikovanja hipoteze, uporabljenih metod ter pričakovanih rezultatov. Prek razprave, ki jo bodo vodili mentorji in študenti drugega letnika, bodo dobili zamisli in nasvete za pripravo lastnih doktorskih tez (glej Raziskovalni seminar 2).

Objectives and competences:

First-year students will get acquainted with practical examples of scientific research and the use of various scientific methods and tips for the effective preparation of their doctoral dissertations, which will be useful more widely: for preparing project proposals and writing scientific articles. To this end, they will get acquainted with the basic methodological literature of scientific research and attend presentations of doctoral theses of second-year students, who will present the basic principles of their research questions, hypothesis formulation, methods used and expected results. Through a discussion led by mentors and second-year students, they will receive ideas and advice for preparing their own doctoral theses (see Research Seminar 2).

Predvideni študijski rezultati:
