#### Predvideni študijski rezultati:

Slušateljice in slušatelji bodo predmet sklenili s potencialnimi odgovori na vprašanja: Kaj je liberalizem 21. stoletja? Je sploh možen, sposoben življenja? In če je, kakšno vlogo lahko igra v domači in mednarodni politiki ter v kulturnem življenju in intelektualni produkciji? Kako ga razumejo liberalci sami in kaj mu očitajo njegovi kritiki? Kdo so liberalci in kdo so njihovi kritiki? Na podlagi kakšnih zgodovinskih izkušenj in programskih vizij kritizirajo liberalizem, v kakšnih političnih in geopolitičnih konstelacijah?

#### Intended learning outcomes:

By the end of the course, the students should be able to ask, and offer answers, to the following questions: What is liberalism for the twenty-first century? Is it possible, or viable? If so, what role could it play in national and international politics, in culture and intellectual production? How is it understood by the liberals themselves, and what are the charges leveled against it by its critics? Who are the liberals and who are their critics? On the basis of what historical experience and programmatic visions they criticize liberalism?
